Outlook 2010 Setup

Account:
info@online-drivers-licenses.org

Open Microsoft Outlook 2010. Click **File**, and then click **Add Account**.

At the bottom, select **Manually configure server settings or additional server types**, and click **Next**.

Select **Internet E-mail**, and click **Next**.

Enter **Your Name** and full **E-mail Address**.

If you have IMAP, select IMAP for your Account Type. If you're not sure, select POP3. Use these settings for your incoming and outgoing servers, depending on the type of email you have:

IMAP	
Incoming email server	**imap.secureserver.net**
SMTP (Outgoing Mail Server)	**smtpout.secureserver.net**

POP	
Incoming email server	**pop.secureserver.net**
SMTP (Outgoing Mail Server)	**smtpout.secureserver.net**

Enter your **User Name** (your full email address) and **Password**, and select **Remember password**.

Click **More Settings**.

Click the **Outgoing Server** tab. Select **My outgoing server (SMTP) requires authentication** and **Use same settings as my incoming mail server**. Select the Advanced tab.

Next to **Outgoing Server (SMTP)**, type **80**. Then click OK.

Click **Next**.

Outlook 2010 will test your settings. When it's done, click **Close**.

Click **Finish**.
